The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/593,626	Applicant(s) OZAWA ET AL.	
	Examiner Peter Szekely	Art Unit 1796	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1-3 and 5-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohme et al. 7,268,190 or Asrar et al 6,620,869, in view of Mang et al. 5,138,022, Weipert et al. 7,205,352 or Audenaert et al. 2002/0031665.

4. Ohme et al. disclose polylactic acid in claim 1, metal salts of phenyl phosphonate in column 7, lines 40-41 and concentrations in column 8, lines 11-16. Asrar et al. teach polyhydroxyalkanoates, which includes polylactic acid, in column 4 and applicants' phosphorus containing salt in claim 45. Weipert et al. recite polyesters in the Abstract and sodium, magnesium, aluminum and calcium salts of phenyl phosphinic, diphenyl

Art Unit: 1796

phosphinic and phenyl phosphorous acid in column 15, lines 14-21. Mang et al. display polyester in claim 1 and sodium phenylphosphinate with its concentration in column 5, lines 5-10. Audenaert et al. reveal polyester in claim 1, and calcium and sodium phenylphosphinate in paragraph 0016. The secondary references divulge that the metal salts of the primary references could be sodium, magnesium or calcium salts, since those are the salts which are customarily used in polyesters, polylactic acid being an aliphatic polyester. Therefore using these salts in the formulations of the primary references would have been obvious to one having ordinary skill in the art, at the time the invention was made.

Specification

5. The disclosure is objected to because of the following: A separate section of "Detailed Description of the Drawings" is missing from the specification.

Appropriate correction is required.

Allowable Subject Matter

6. Claims 4 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (571) 272-1124. The examiner can normally be reached on 6:10 a.m.-4:40 p.m. Tuesday-Friday.
